Teams race towards piecing together the details of the whodunnit, once they duck under the crime scene tape each team is provided with a locked briefcase containing dossiers on their "persons of interest"

Green House

Green House is a team building event that will test your awareness of the processes through which the everyday family home can be made completely energy-efficient and self-sufficient... by building your very own replica house! As we go about our busy everyday lives, we may not stop to think or realise that each action within our own home has an impact on the environment... And the simple possibilities that exist when we truly consider how sustainability applies to us all.

The Box

A large box containing a digital keypad and an ominous looking biohazard canister has been deposited in your conference room... it must be unlocked and removed for forensic testing. On the main screen a digital clock remains frozen at 60:00 minutes...but once the teams are briefed, the clock springs into life and the countdown begins. This is a fast and furious challenge as each team goes all out to successfully decode the master cryptic message to gain the means to open the box.

Crystal Mazed

Start the fans please! Based on the iconic TV program, this fast-paced event requires teams to work together and complete activities in three themed zones. A series of 4 themed challenges awaits in each zone, designed to test teams' ability to nominate the best individual to triumph at each activity.
