A NEW SPACE WITH A
PRIVATE WATERSIDE
TERRACE BOASTING
PANORAMIC VIEWS - IN
THE HEART OF LONDON'S
MOST CONNECTED AND
VIBRANT BUSINESS
DISTRICT.

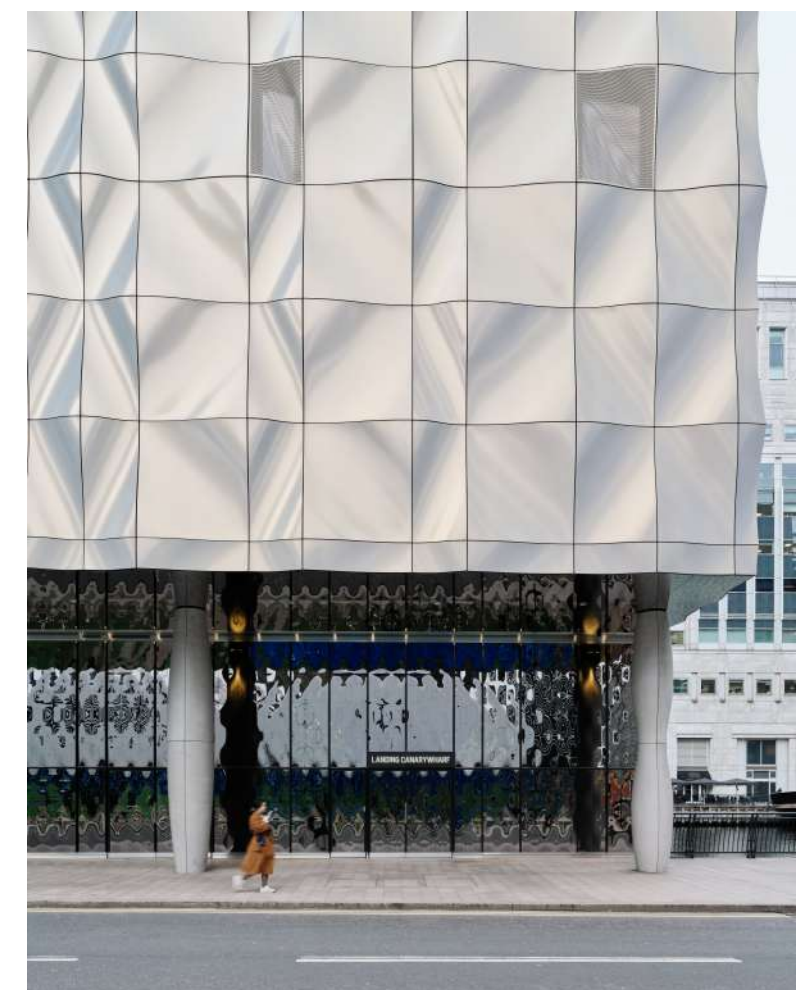

Landing Canary Wharf is London's flagship design-led venue,
blending architectural elegance, editorial grade hospitality,
and modular functionality.

ARCHITECTURALLY REFINED. INFINITELY FLEXIBLE.

With space for up to 450 guests, this is a place designed for distinction. Precision-led, highly personal, and entirely private. Whether for workshops, awards dinners or private gatherings, Landing Canary Wharf offers a seamless blend of architectural polish, fine-tuned hospitality and the freedom to make the space your own.

MAIN SPACE CAPACITIES

The venue is fully equipped with integrated AV, lighting and sound, plus a built-in stage and event furniture in our flexible House Format. The main space can also be reconfigured to a wider, bespoke Waterside Format, designed to focus attention on the stage and maximise branding opportunities.

Note: Individual space capacities are subject to final seating, production and event activities, as well as fire exits.

INSIDE LANDING CANARY WHARF

Landing Canary Wharf offers exclusive hire of the Main Space and private Waterside Terrace, with premium AV and lighting, discreet breakout areas and curated guest amenities throughout.

The Main Space can be configured in either House Format or a bespoke Waterside Format, with both stage positions illustrated here - each offering a distinct perspective and flow to suit your event.

THE BAR

Guests arrive into a bar and lounge that reflects the venue's design-led aesthetic, centred around a custom-built bar and framed by natural materials and mid-century furnishings. The back bar can be concealed behind shutters, allowing the area to be fully repurposed for different event needs, creating a versatile, interchangeable environment.

With house pieces included, layouts adapt effortlessly for summits, dinners or receptions, balancing style with flexibility.

MAIN SPACE

The Main Space is a bright, open-plan environment defined by floor-to-ceiling windows and calm, contemporary design. Filled with natural light, it creates a focused setting for conferences, presentations and receptions, supported with built-in AV and flexible layouts. In House Format, the space offers a pillar-free view of the main stage, while the LED wall can be concealed to allow alternative AV and staging configurations.

A curtain system enables the room to be quickly zoned, supporting seamless transitions and impactful reveal moments. The House Format accommodates up to 220 guests in a theatre-style layout, while the bespoke Waterside Format is recommended for awards for up to 250 guests or 224 in a wider theatre-style setup, ensuring maximum impact and flow.

WATERSIDE TERRACE

The Waterside Terrace extends the venue's refined simplicity outdoors, merging skyline views with the calm of the surrounding dockside setting.

A rare find in Canary Wharf, this private covered terrace is a standout feature - complete with beautiful house furniture and its own outdoor bar, it creates a setting for receptions, networking events or cocktail hours that balance urban elegance with waterside ease.

TERRACE ROOM

The Terrace Room connects the Main Space with the Waterside Terrace, shaping guest flow with ease. Positioned as a natural arrival point for receptions and terrace access, it also works seamlessly as a secondary bar or breakout space for up to 30 guests in a theatre-style layout.

A dedicated back bar, modular bar unit and flexible layouts create a refined, versatile setting - offering a sense of privacy while maintaining a strong connection to the terrace beyond.

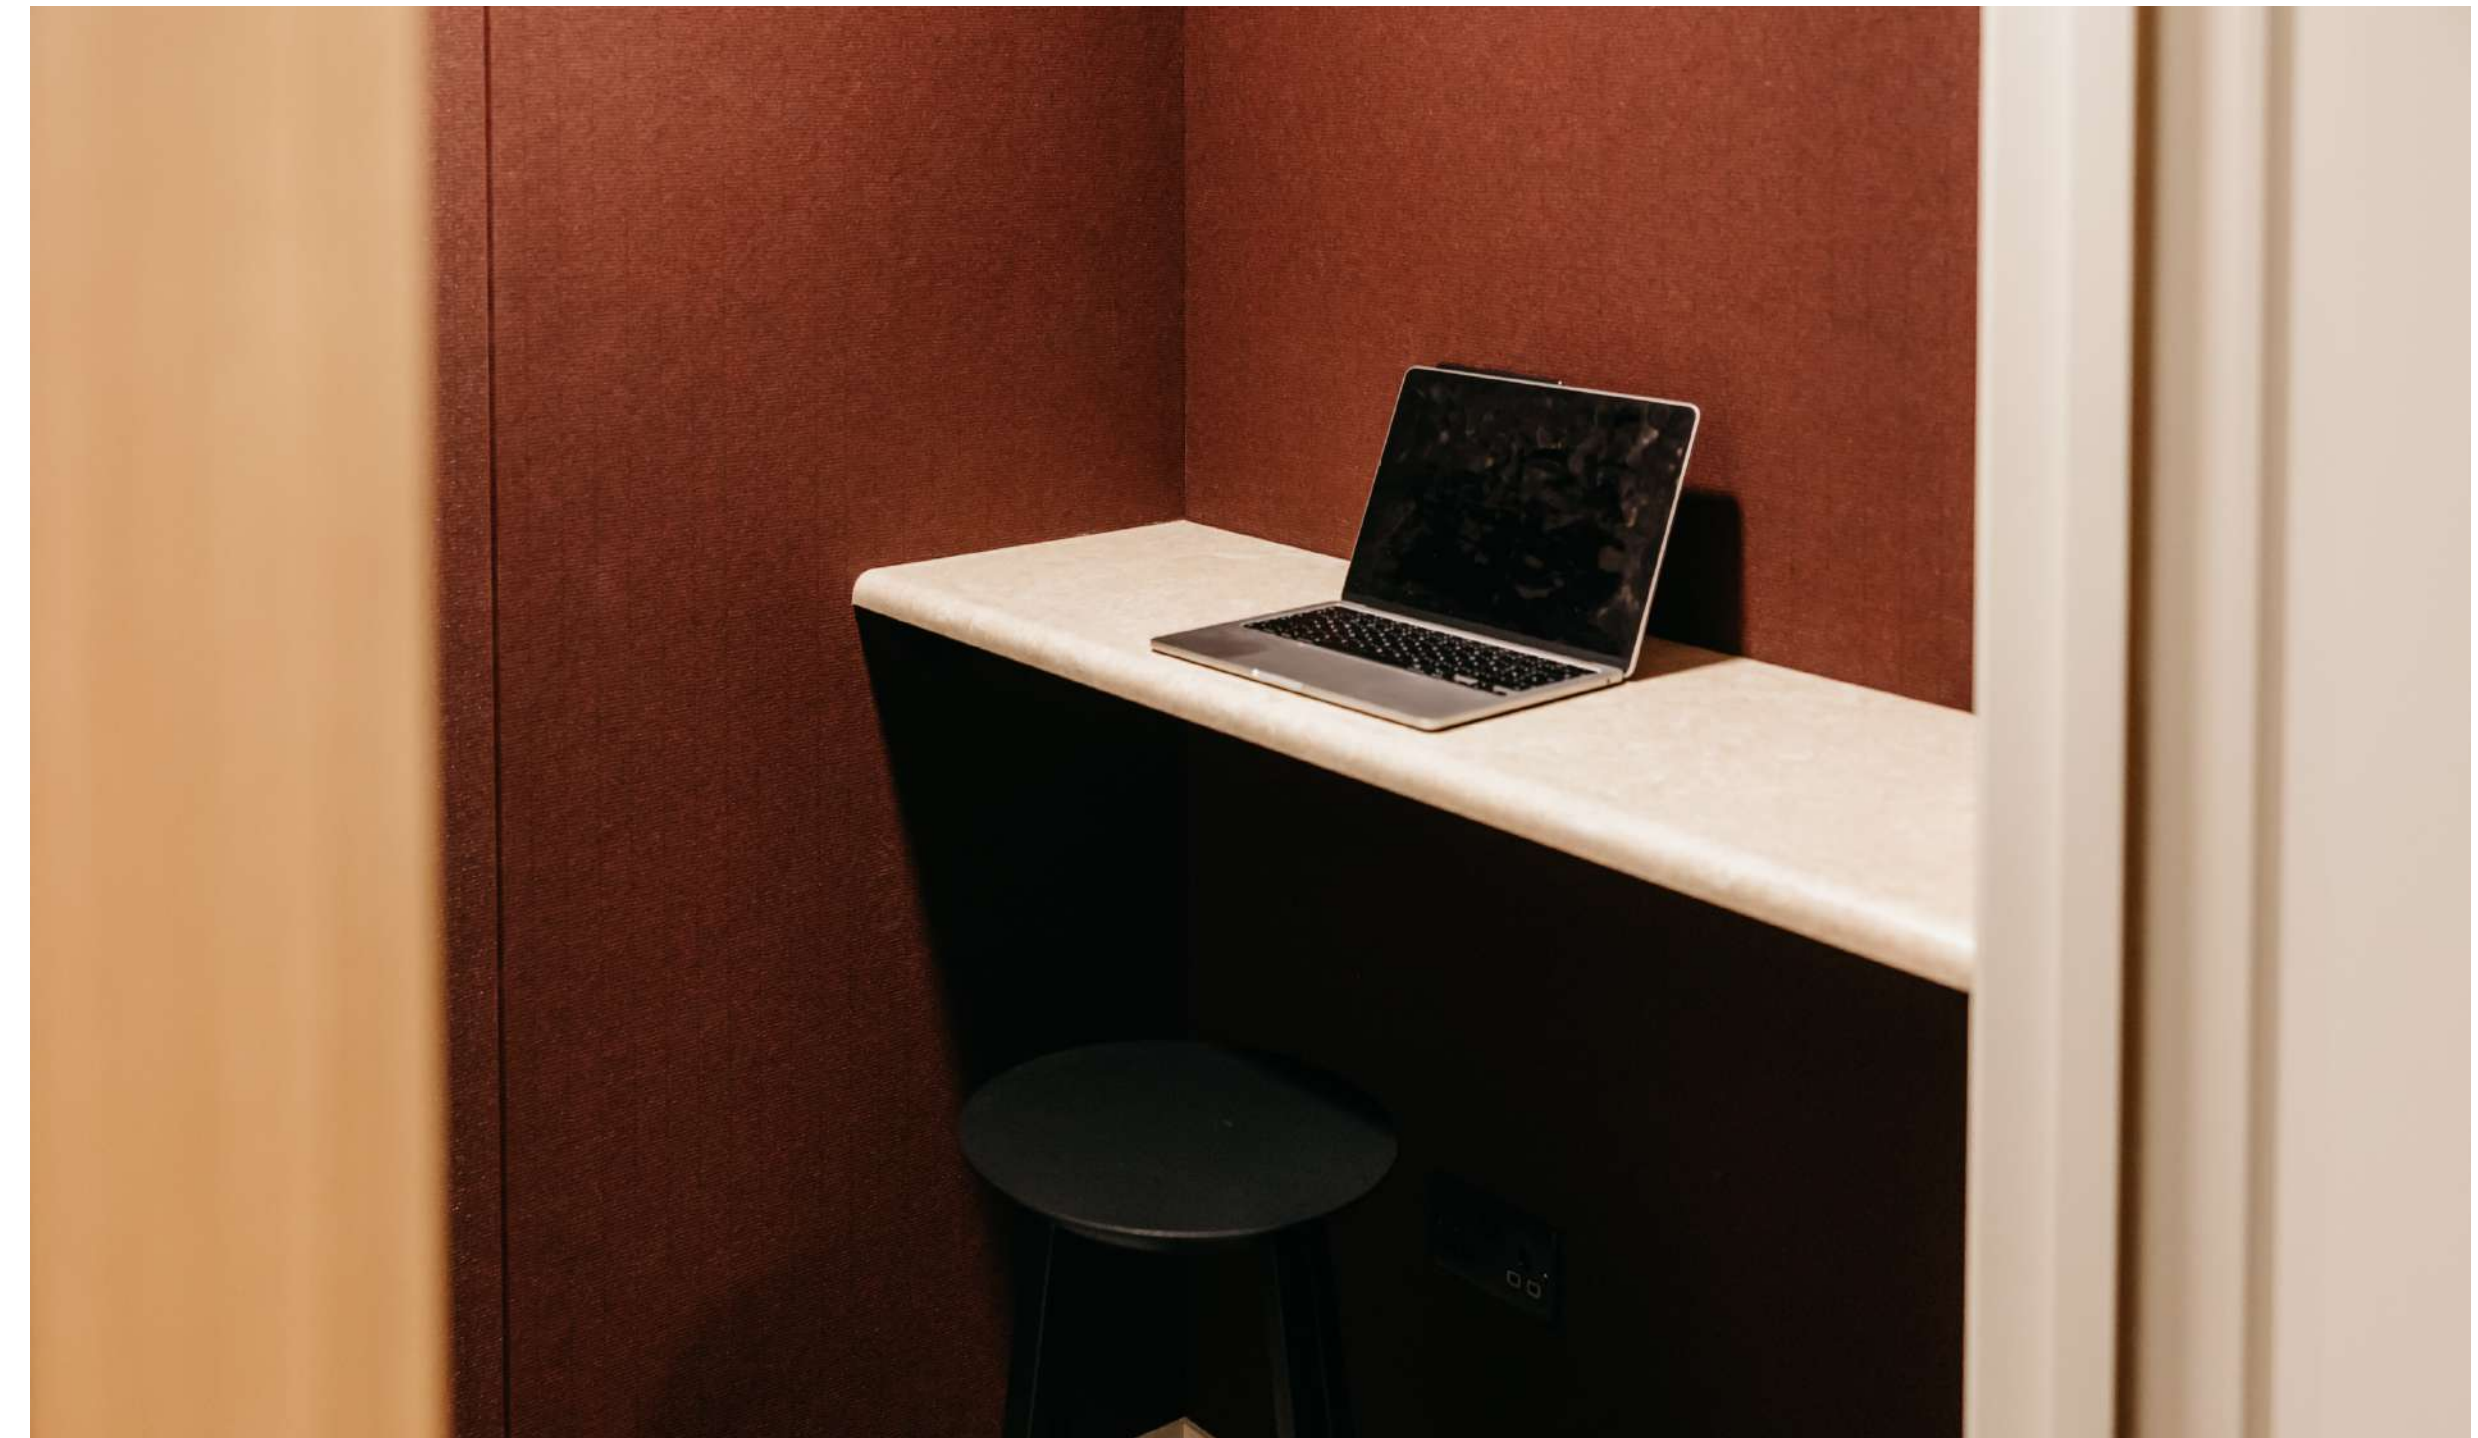

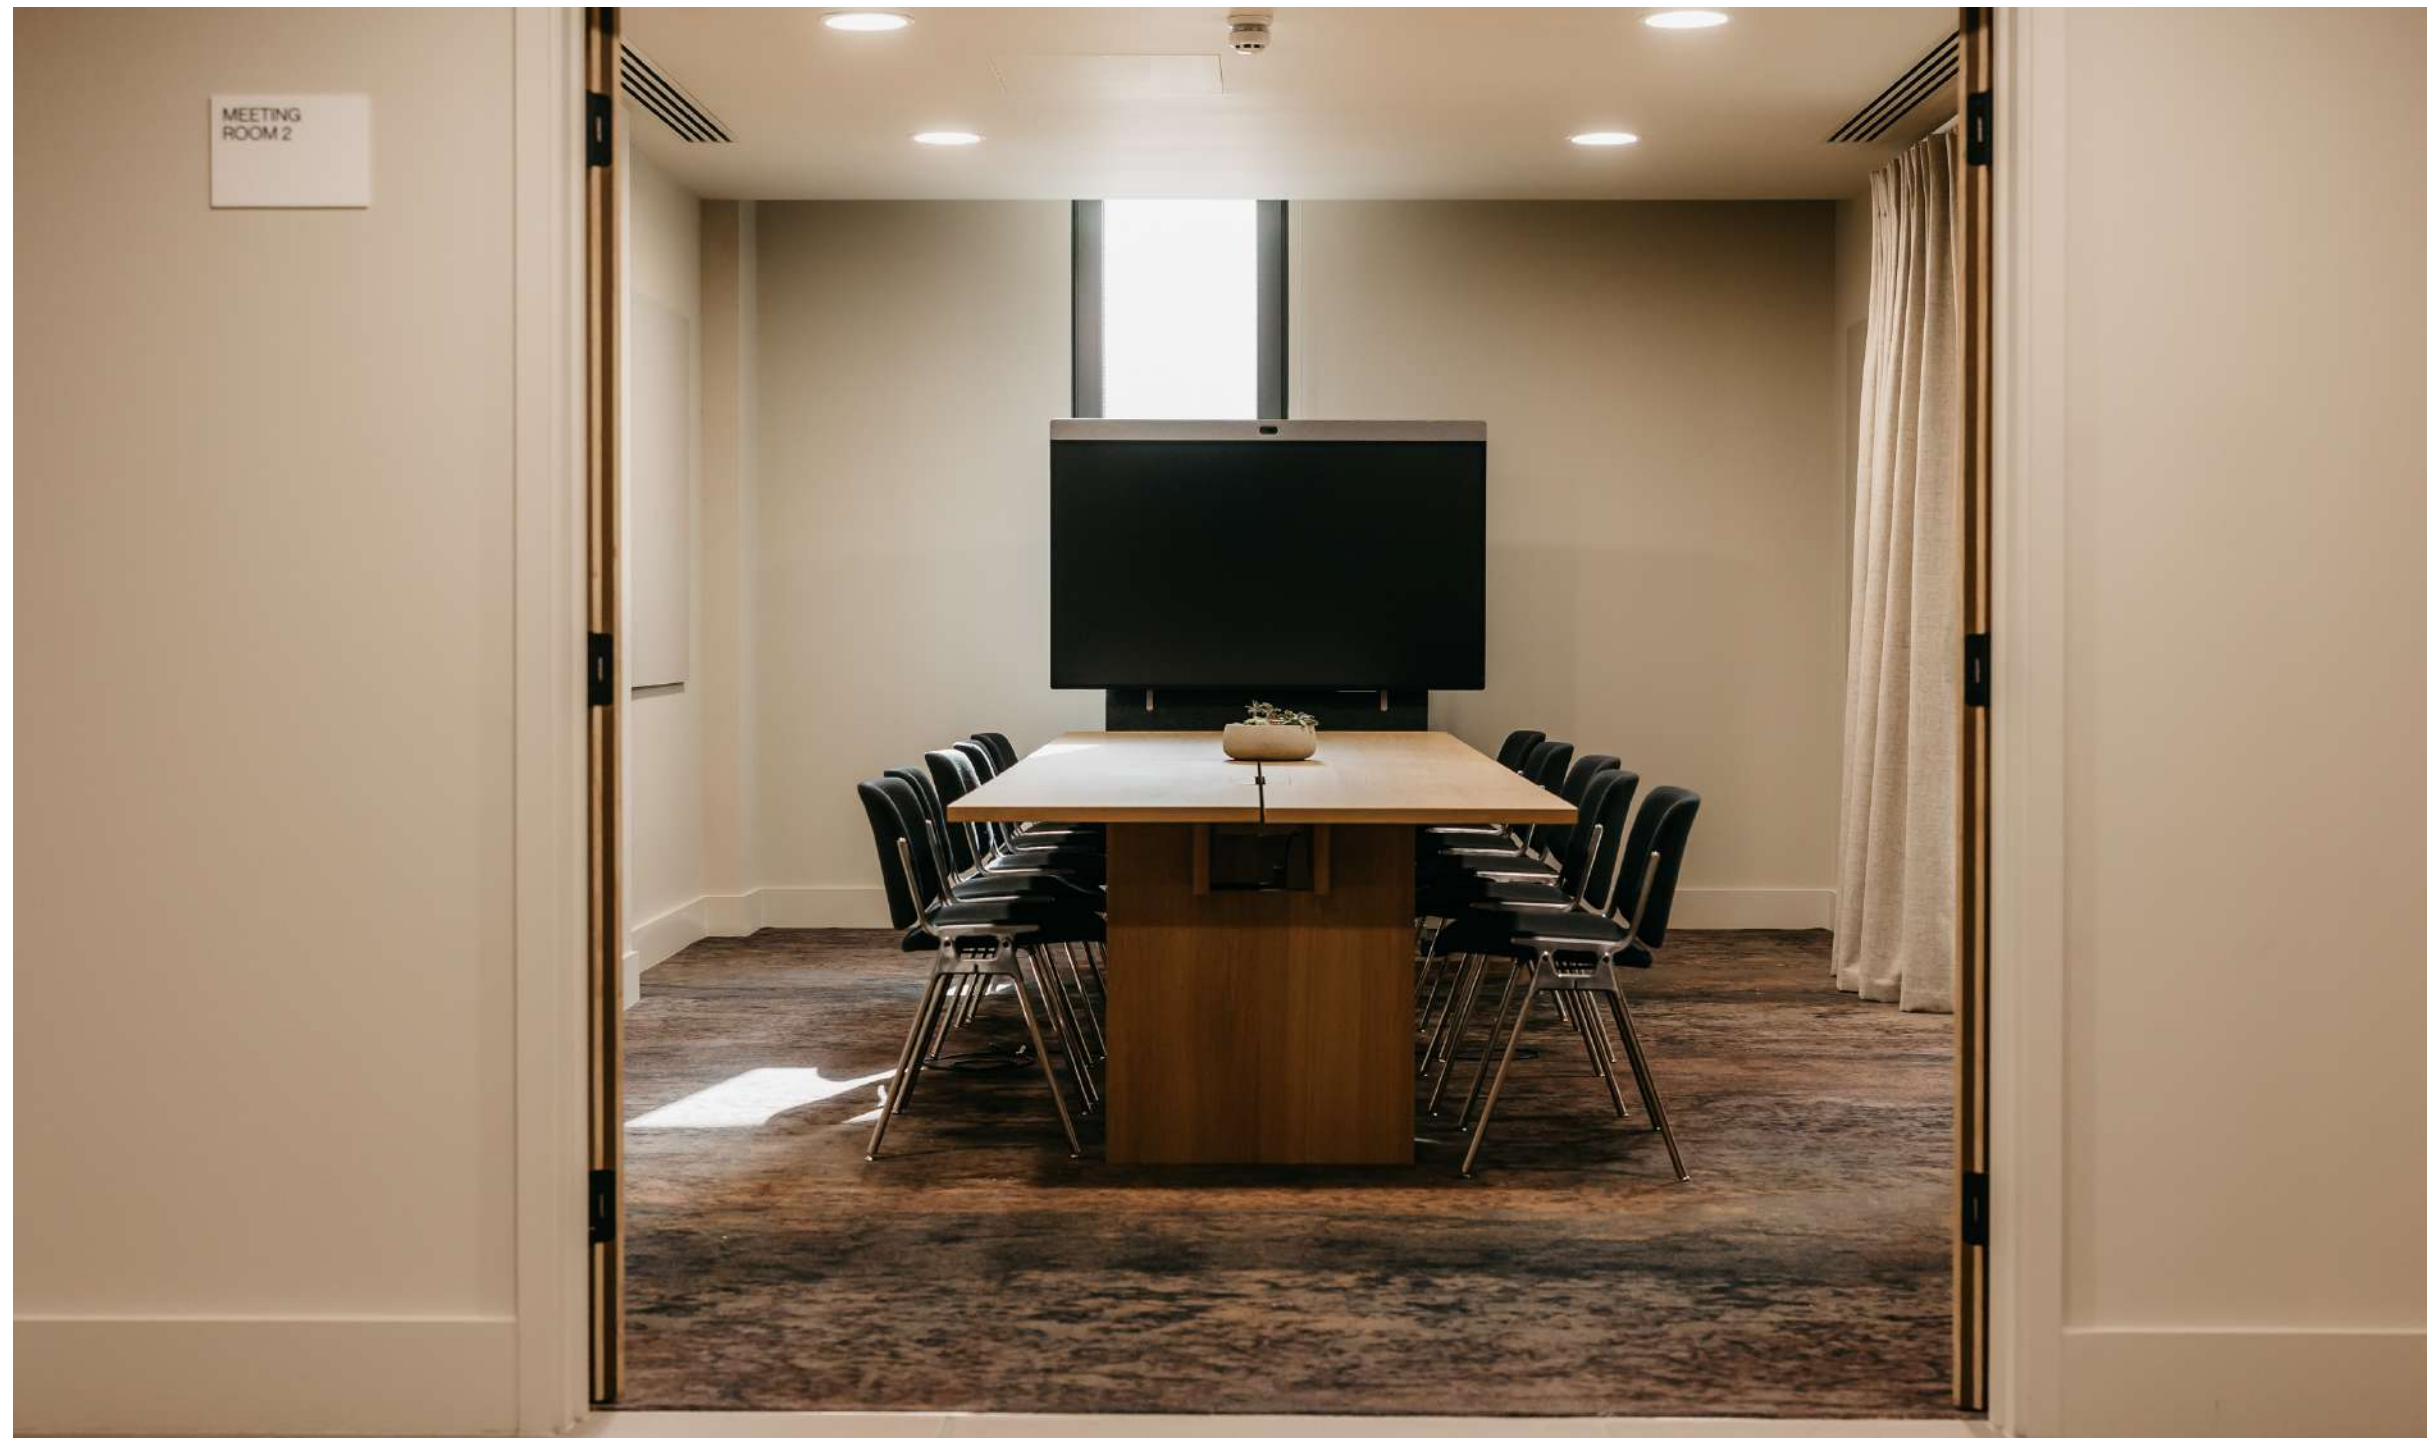

MEETING ROOMS & BOOTHS

Meeting Rooms One and Two accommodate up to 12 guests in a boardroom-style layout, each featuring a 65-inch screen with state-of-the-art video conferencing technology.

In addition, two private booths provide a quiet space away from the outside world - ideal for discreet calls during busy live events, or for use as a mothers' room.

FOOD & DRINK

At Landing Canary Wharf, every menu is built with intention. Designed to complement the space and your guests, the food and drink offering delivers refined flavours, seasonal ingredients and a quietly confident approach.

Whether you're hosting a daytime conference, a waterside reception or a private dinner, it's shaped around your event. From curated canapés to full-scale dining experiences, hospitality here is never an afterthought - it's part of what defines the space.

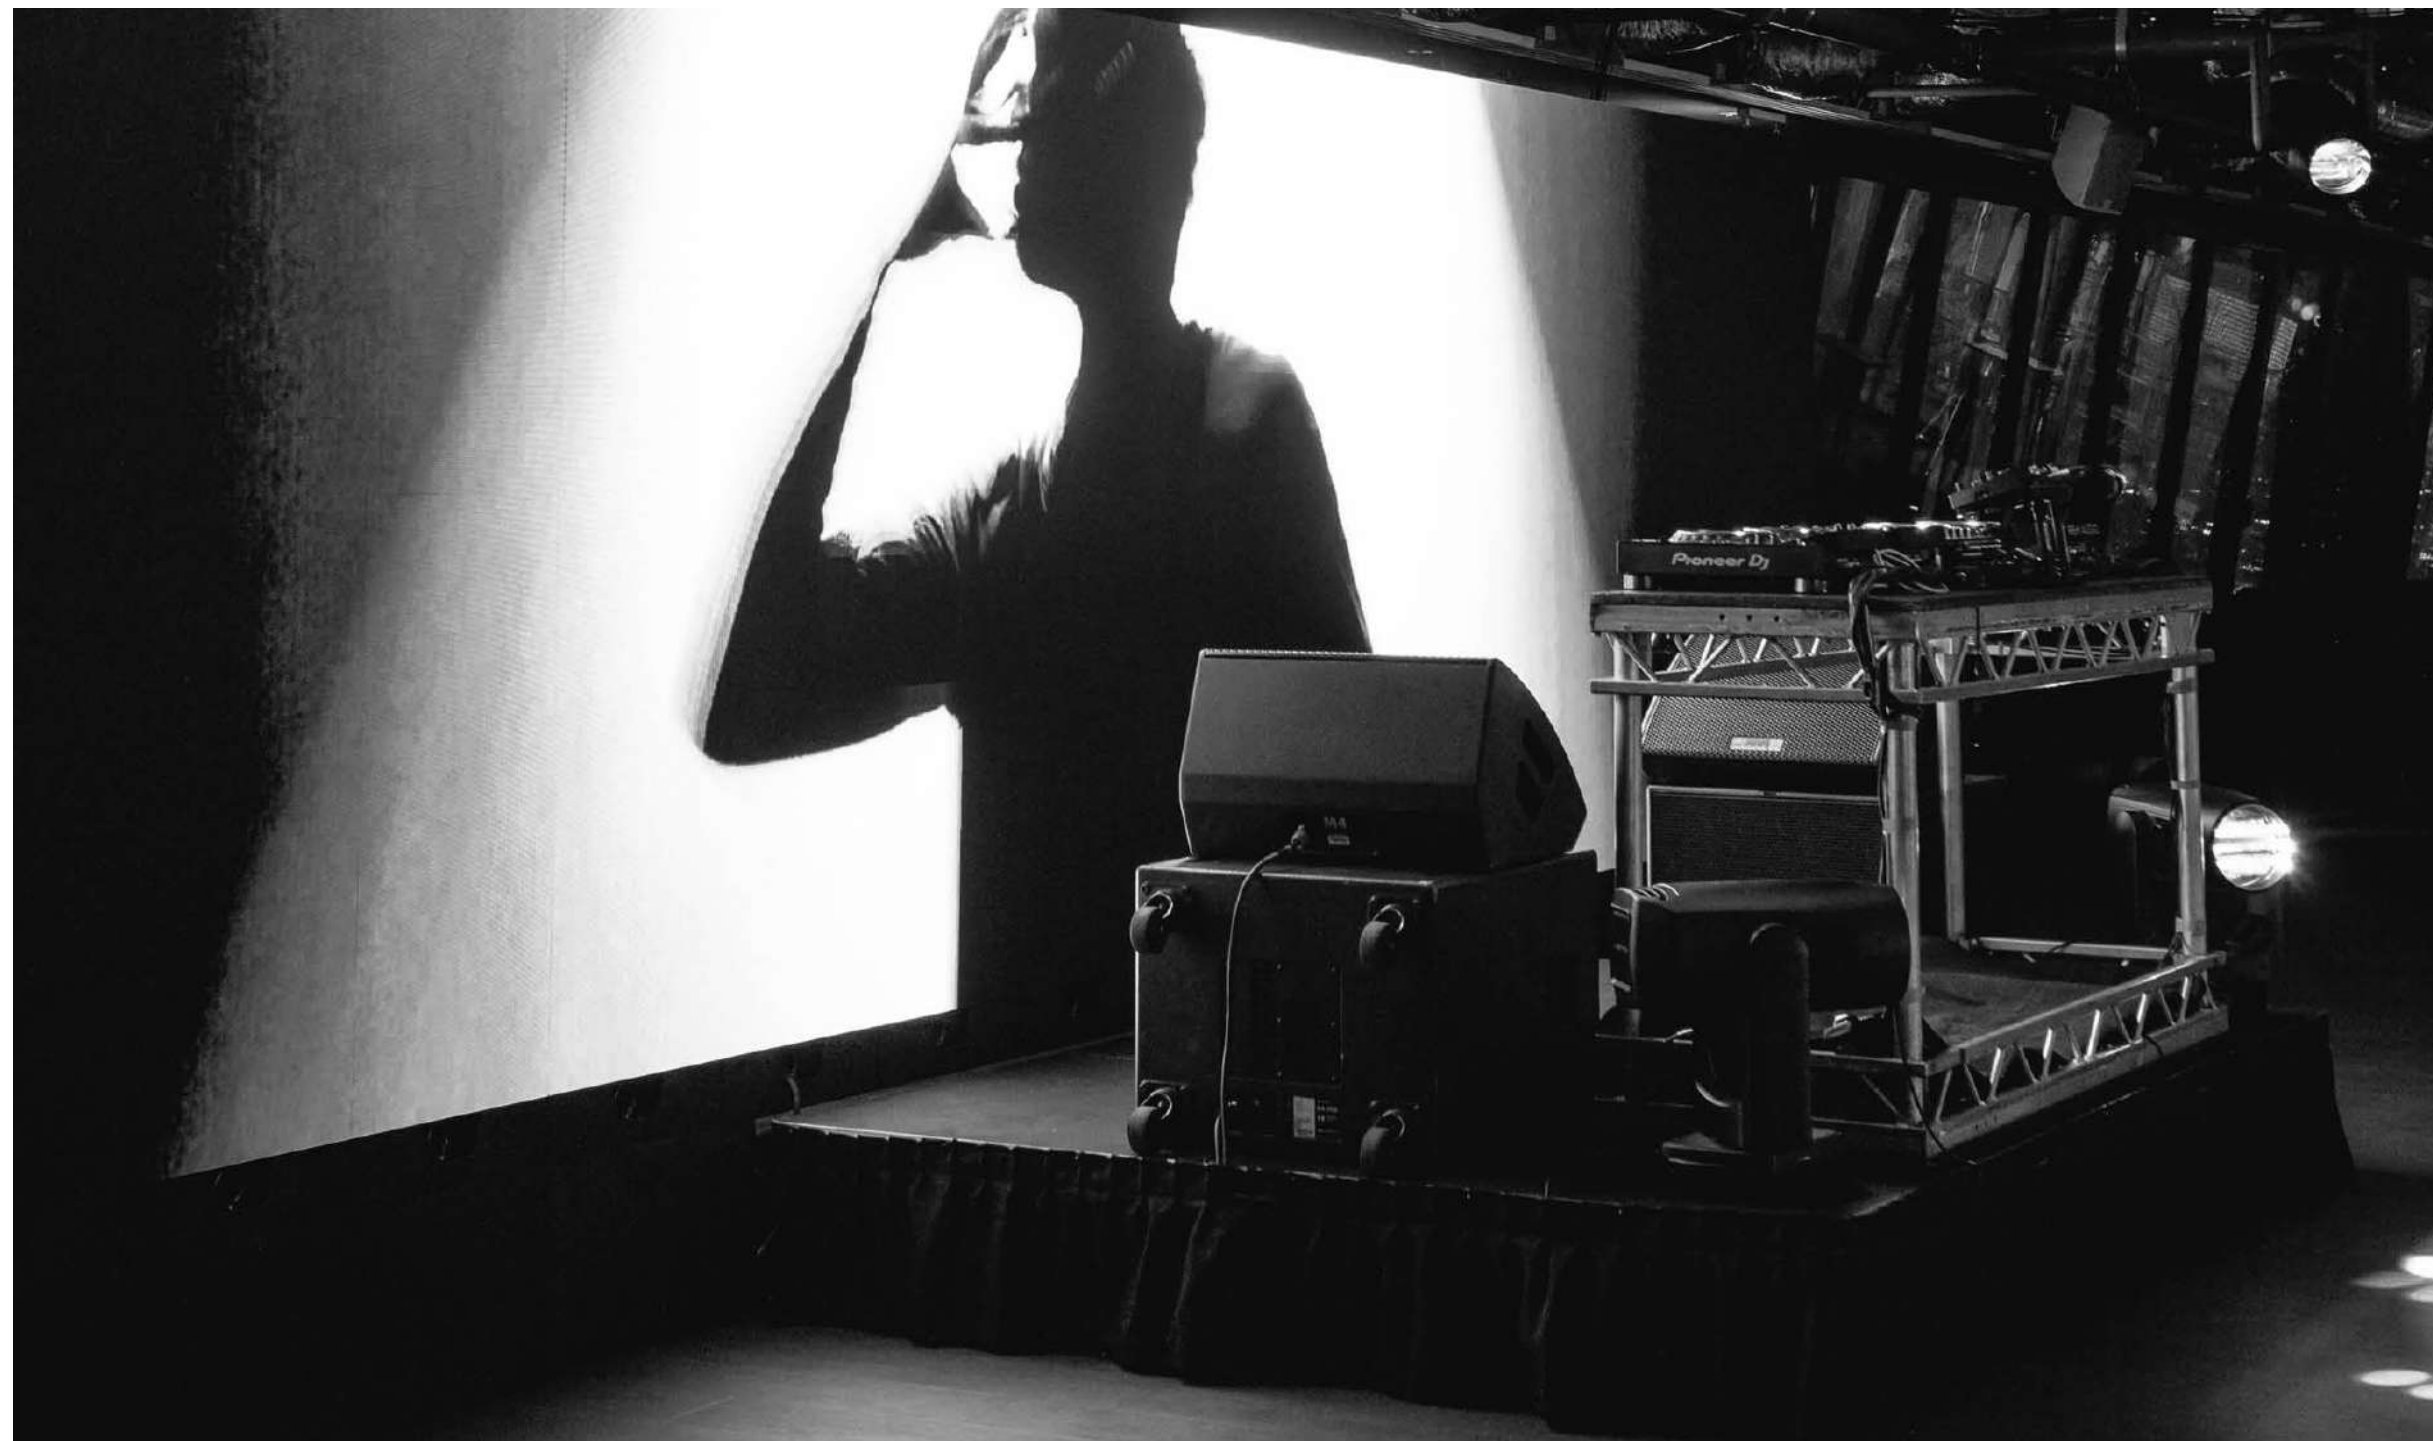

IN-HOUSE PRODUCTION

Landing Canary Wharf comes fully equipped with integrated AV, lighting and sound, including a built-in stage and event furniture within our flexible House Format. The Main Space can also be reconfigured to a bespoke Waterside Format, repositioning the stage to span the full width of the room, ideal for awards ceremonies and events looking to maximise stage focus.

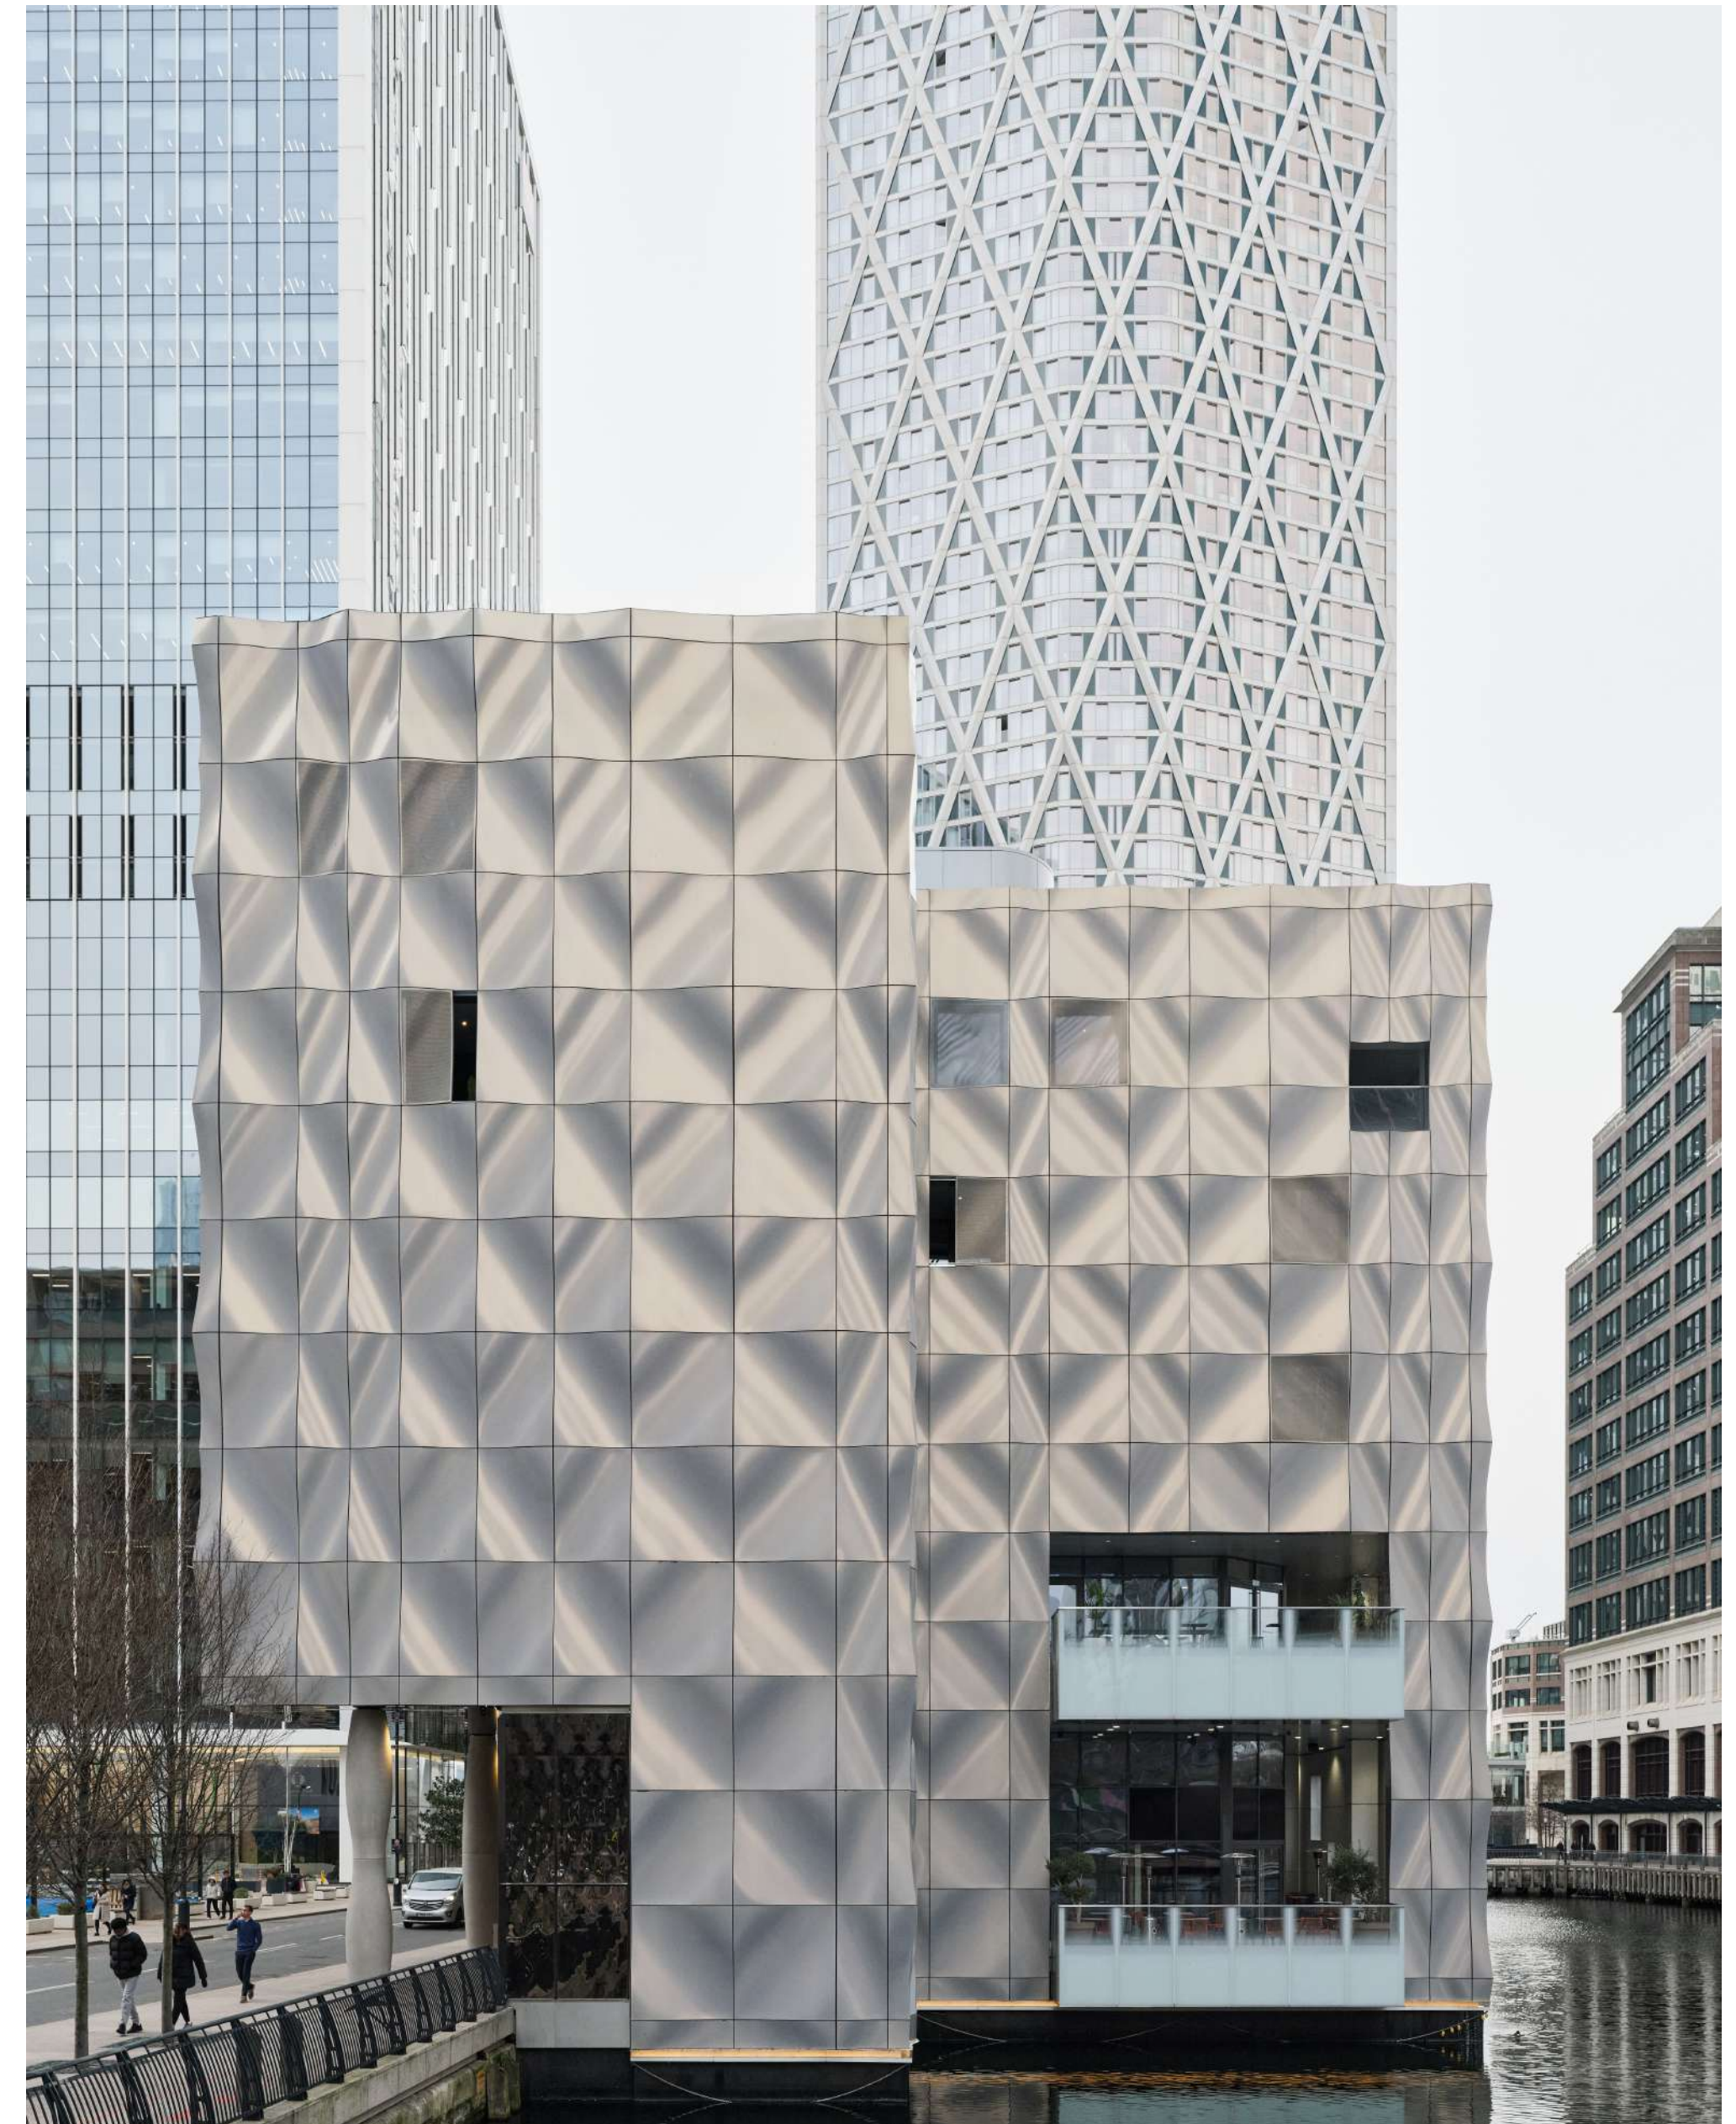

Our in-house partners, Vibration Production, bring expertise across design, pre-production and live event delivery. Every element is tailored to elevate the experience and complement the unique atmosphere of the venue.

THE BUILDING

Designed by Japanese architect, Jun Aoki as a contemporary form, the building's composition is inspired by the visual effect of wavelets on the water, producing a building that interacts and is sensitive to its surroundings.

The design and its inspiration of the natural movement of water is shown through its shifting reflections, changing light, and constant motion. This fluid language carries through to the interiors, where clean lines and natural light create a dynamic atmosphere that evolves throughout the day.

NEIGHBOURHOOD

Landing Canary Wharf is located on Eden Dock, a newly developed waterside space of floating pontoons and aquatic gardens designed to bring nature and public life to the heart of Canary Wharf.

Surrounded by striking architecture, world-class dining and a growing creative scene, Canary Wharf is one of London's most connected districts, served by the Elizabeth Line, Jubilee Line, DLR and Thames Clipper - a destination where business, culture and public space come together.
