OUR ETHOS

At Apricity, doing things the right way is at the heart of everything we do, and this commitment extends to every private event we host. We are proudly recognised with a Michelin Green Star for regenerative practices and hold the highest three-star rating in the Sustainable Restaurant Association's Food Made Good Standard, reflecting our dedication to transparent, best-practice operations across every aspect of what we do.

Every aspect of our restaurant - from our circular-economy design and low-waste menus to our partnerships with regenerative farmers, urban winemakers, day-boat fishermen and biodiverse producers - is thoughtfully considered to minimise environmental impact and support a more resilient food system.

For your private event, this means menus crafted with seasonal, consciously sourced ingredients, a dining space designed with reuse and restoration in mind, and an experience that honours both people and planet.

FOOD & DRINK

At Apricity, each private event menu is designed around you and your guests, with care taken to accommodate all dietary requirements and preferences. Whether plant-based, vegetarian, or including meat and fish, we create dishes that ensure everyone feels equally considered and well looked after.

Our cooking follows the rhythm of the seasons, working closely with local farmers, growers and makers to source ingredients at their best - resulting in menus that are fresh and thoughtful.

As with each dish, we take special care when choosing our wines. Wines are thoughtfully selected from low-intervention vineyards, with pairings designed to complement the menu.
