

WE ARE

Seasoned.

An amazingly dynamic team of highly motivated, bright, talented people whose sole focus is on creating extraordinary smile-inducing food and drink experiences using fresh, seasonal, sustainable, ethical and local ingredients.

OUR STORY

began with a simple idea: to create exceptional food and drink experiences that stand apart from the rest.

At *Seasoned*, we are proud of our roots. We are *Seasoned*, not just in name, but in everything we do. Our talented team are rooted to our principles of expertise, quality and the pursuit of perfection, and our name embodies the essence of our journey.

Much like an ingredient that is transformed through time and experience, we have refined our craft, polished our skills and enriched our services.

With every client, customer and guest we serve, we continue to improve and evolve, drawing on our years of experience to deliver truly memorable experiences for everyone.

Over the years, our talented team has been admired for their passion and ability to deliver a personal, boutique service, no matter the scale.

So, what sets us apart? Great food doesn't lie. It says everything you need to know about the quality of its ingredients and the skills and imagination of its maker. As one of the most established independent caterers, we have earned our seat at the table thanks to our unwavering commitment to quality.

From the very first interaction to the final bite of food, we ensure every aspect of our

service is crafted to perfection. We take great pride in the fact that our services not only meet but exceed expectations, always evolving to remain relevant in a world that's constantly changing.

Being a force for good is at the heart of everything we do. Our approach is creative, imaginative and built around the idea of delivering positive impact – one that resonates, inspires and leaves a lasting mark. Whether we're working with our prestigious partner venues and exciting brands, or our local suppliers and purpose-led social enterprises, we create smiles, conversation and impact at every table – which is why we are trusted by businesses, brands and venues as their go-to caterer who always practices what they preach.

OUR MISSION

At Seasoned we work each day to try and further reduce our impact on the environment.

We are committed to sustainability and we ensure we minimise our impact on the environment. You can read about all the amazing things we have already done and are planning to do [HERE](#).

We always encourage our clients to come on this journey with us and would be delighted to talk to you about how we can work together to minimise the impact of your event. We also have some tools to support you should you want to offset those unavoidable impacts to produce a carbon neutral event. You can use the myclimate.org calculator to measure your CO2 emissions tonnage from your event. There are then many great causes, focused on carbon reducing projects, which would be delighted to receive a donation.

DIETARY NEEDS

How we support you as the organiser and those with dietary requirements for an amazing event.

Dietary requirements have become incredibly complex and as the organiser of the event it is a big responsibility to get the right food to each guest.

We have put together some guidelines and actions that will support you and your need to provide accurate allergens and dietary information for each of your guests.

In order that we can provide you and your guests with the best possible level of service at your event, we ask that you provide us in advance details of each individual with a special dietary requirement.

To help you manage your guest lists and requirements we strongly advise that rather than sending out the menu in full to your guests before the event, you ask them for their dietary requirements. This will ensure that it is actually dietary requirements that are being received rather than just a preference of dishes as we offer one starter, one main and one dessert, then an alternative dietary dish.

When you come to confirm your event, just let us know your guests dietary needs and we will design a dish to encompass everyone.

We want to ensure that all of your guests have the best possible experience at your event and most importantly that all allergen requirements are safely and accurately met. We are here to support you in making this happen.
